SOFTWARE EXPERIENCE

General Assembly

Austin, TX

Software Engineering Student

Oct 2019 - Jan 2020

- Successfully complete three month 500-hour full-stack software engineering program.
- Utilize Git and Github for version control and team projects.

PROJECTS

- Home Sweet Home is a web app for a real estate company that was built by a small team. I wrote the code to implement Django auth, extend the user class to add a boolean property for extra authorization, the models for PostgreSQL, and the search/filter functions.
- Developed a law firm dashboard using Node, Express, MongoDB/Mongoose, and Google OAuth. Has full CRUD on three models, used call backs to learn asynchronous functions.
- Built a refinery simulator game that implements a real-time scrolling graph using Canvas.js.

SKILLS

JavaScript • Node.js • Express • HTML • CSS • MongoDB • Mongoose
Python • Django • Git • React • PostgreSQL • AWS S3

WORK EXPERIENCE

Schlumberger

Alaska

Field Supervisor III

May 2014 - October 2019

- Executed coil tubing jobs while overseeing a crew of three in arctic conditions. Excellent service quality allowed our sales personnel to successfully negotiate a \$3,000 per day increase in revenue.
- Conducted weekly incident reviews to determine the root causes of personnel and equipment failures. Tracked and documented incidents and reviews in company database. Generated action alerts to affected parties.

Halliburton & IPS

Pennsylvania

Field Supervisor

May 2011 - May 2014

- Drilled out frac plugs to enable production from newly fracked wells.
- Took the initiative to become an assessor for our district. This allowed me to evaluate peers, and rate their competency in order to become 100% compliant with new company and client procedures.

EDUCATION

Software Engineering Immersive
BS Accounting

General Assembly - Austin, TX
Mississippi State University - Starkville, MS
